

TPI SmartPayments™ For QuickBooks Accounting

*PC-Based Payment Processing Software
Simple yet Fast and Powerful*

TPI SmartPayments Plug-in for QuickBooks seamlessly integrates electronic payments into Intuit's QuickBooks Accounting for processing credit cards, debit cards, EBT, gift cards and electronic checks.

Use TPI SmartPayments for QuickBooks to route transactions directly to Chase Paymentech's Tampa platform using the Internet for fast secure payment processing resulting in 2-3 second transaction times. Integrated Software provides a lower cost more efficient way to process electronic payments than a traditional payment terminal due to the following benefits:

Integrated Solution Business Benefits

- Faster – One step integrated solution
- Fewer Errors – Integrated solutions eliminate double entry
- Take advantage of the PC you already own – The PC screen and keyboard make it easy to use and provide historical reports.

Its as Easy as 1,2,3

1. Install and setup TPI software with Chase Paymentech merchant information.
2. Process orders in QuickBooks and select electronic payment type Credit Card.
3. TPI automatically pops-up and process payments direct to Chase Paymentech and records approved transaction in QuickBooks.

It's that fast & easy!

Works with Intuit QuickBooks 2004, 2005, 2006 (Pro, Premier or Enterprise Edition)
